I HAVE for many years past used in my own family, and recommended to the families of my congregation, as the best remedy I know of for coughs, colds, and incipient consumption, Dr. Jayne's Expectorant, and also Jayne's Sanative Pills as a remedy for constiveness, biliousness and impurity of the blood. My confidence in the great value of these medicines increases the longer I use them, and observe their wonderful health-restoring effects. They have given universal satisfaction in all the families to whom I have recommended them.

SEWING MACHINES. Wheeler & Wilson's ROTARY-HOOK, LOCK-STITCH SEWING MACHINES. MORE THAN 1,000,000 OF THEIR Family Machines IN USE. A Quarter of a Century's trial has demonstrated their Superiority.

"Wheeler & Wilson's New No. 6 Machine must eventually supersede all others now known, which it comes in competition. We recommend for the highest award which it is in the power of the Institute to bestow."—From the unanimous report of the five Judges of the American Institute, New York, 1874.

The Board of Managers unanimously approved the report, and recommended for the machine the Gold Medal of the Institute.

The Board of Direction unanimously approved this recommendation, and awarded the Gold Medal to Wheeler & Wilson, the only Gold Medal awarded for a Sewing Machine by the American Institute for many years.

The Austrian Official Report of the Vienna Exposition pronounced it "the marvel of the Exposition," and added, "this universal machine sews the heaviest leather harness and the finest gauge with a truly pearl stitch."

What the Leading Manufacturers of Boots and Shoes say of WHEELER & WILSON'S New No. 6 Sewing Machine.

We, manufacturers of Boots and Shoes, are using Wheeler & Wilson's New No. 6 Sewing Machine in all kinds of stitching on our work, and confidently believe that it will supersede all others in this branch of manufacture, for the following reasons:

1. The work done by this machine is superior to that of any other in variety, amount, excellence and beauty.

2. This machine is more durable than any other in its class, requiring much less outlay for repairs and renewal of parts.

3. It does the cording or staying of button holes in a most elegant and substantial manner, without the expense of royalty.

In short, because by the use of this machine we can turn out superior work at less cost than with any other.

[SIGNED BY MANY.] It is fast superseding all other machines for leather work. WHEELER & WILSON'S New No. 7 Machine.

Now for the first time introduced to the public, ranks in excellence with their famous No. 6 Machine, but has some modifications adapting it to special classes of work. The Tailor will find it as well suited to his work as is No. 6 to leather work. It might properly be termed the Tailor's Machine.

TESTIMONIALS. The substantial excellence of the Wheeler & Wilson Sewing Machine, and its high appreciation by those who are familiar with its practical working, are shown in the following testimonials from well-known firms:

[From A. J. CLARK, prominent Shirt Manufacturer.] We use the Wheeler & Wilson Sewing Machine in the manufacture of Shirts, Collars and Cuffs, as no other machine will do our work so well. A. J. CLARK.

[From JOHN SHILLITO & CO., leading Dry Goods Merchants of Cincinnati.] During the past ten years we have used over One Hundred Wheeler & Wilson Sewing Machines in the manufacture of Ladies' Garments of every kind, including Heavy Cloaks and Fine Underwear, and they have given entire satisfaction. For our work the Wheeler & Wilson Sewing Machine is unequalled. JOHN SHILLITO & CO. APRIL 11th, 1874.

[From STRIBLEY & CO., Shoe Manufacturers of twenty-two years experience.] We are running the Wheeler & Wilson Sewing Machine No. 6, by steam power, at a speed of 700 stitches per minute on Ladies' and Misses' Fine Shoe Uppers, and find it superior to any other machine in the following particulars:

It will close seams with heavy silk in leather tighter, without puckering, than any machine we know. It will close leather seams with Marshall's Cabled Thread at above speed equal to the Howe Cylinder Machine.

It runs faster and makes a more regular stitch on fine leather than any machine we have ever used.

We believe it will prove a very durable machine, and when worn down may be repaired cheaper and better than the average of first-class machine. STRIBLEY & CO. We use and cheerfully recommend the Wheeler & Wilson No. 6 Sewing Machine as the best in use for Shoe Fitting. Our display of Ladies' and Misses' Fine Shoes, at the Cincinnati Exposition of 1876 was stitched and fitted on these Machines. KRIPPENDORF & HART.
